

BILL NO. BL2018-1208 (WITHERS, ELROD, & O'CONNELL) – This ordinance would approve three license agreements between the Metropolitan Government and Verizon Wireless (Verizon) to install in-building radio-distribution devices (IBRDs) to enhance wireless reception on or within the Historic Courthouse, the Justice A.A. Birch Building, and the Nashville Public Library. Each location is subject to a separate license agreement. The IBRDs would amplify Verizon's wireless signal within these buildings, creating better reception for the wireless users in these buildings.

The term for each agreement is five (5) years, but each may be extended for an additional five (5) year term.

Amendments to this legislation could be passed by resolution.

Fiscal Note: There will be no cost to Metro for the installation or operation of these devices.
